

UIC CLASS VI GEOLOGIC STORAGE OF CO₂ PERMIT APPLICATION

Loving CCS Hub
Central Loving Facility
Loving County, Texas

Section 4: Engineering Design and Operating Strategy

[40 CFR §146.82, §146.86, §146.87]

Prepared for:
EPA Region 6
Underground Injection Control Section
1201 Elm Street, Suite 500 | Dallas, Texas 75270

Prepared and submitted by:
Milestone Carbon Delaware CCS Hub, LLC
840 Gessner Rd, Suite 600
Houston, Texas 77024

1 August 2024

Table of Contents

4.0 OPERATIONAL STRATEGY [40 CFR 146.82(a)(7), (a)(8), (10), (11), (12) 146.86, 146.87]	3
4.1 Injection Well Operating Strategy	3

[REDACTED]

List of Tables

Table 4-1: Proposed Operational Procedures	3
Table 4-2: Injection Intervals	4

4.0 OPERATIONAL STRATEGY [40 CFR 146.82(a)(7), (a)(8), (10), (11), (12) 146.86, 146.87]

Milestone's **Section 4** includes operational strategies employed during the injection phase of the Delaware CCS #1 & Delaware CCS #2 Injection Wells proposed by Milestone. Section 4 also describes the rates, pressures, and durations of injection.

Milestone's permit **Section 3** describes the engineering design and construction details of the injection and monitoring wells.

4.1 Injection Well Operating Strategy
