PROPOSED RING LEVEE

82,145 S.Q. FT.
(1.89 ACRES)

SECTION A-A'

NO SCALE

NOTES:

- 1.) Approximately 423 cubic yards of excavation required for proposed ring levee.
- 2.) Boards will be laid on natural ground for drill area.
- 3.) If well is productive, drill area will be permatized with approx. 1,015 cu. yds. of limestone.
- 4.) A containerized system shall be used for drilling fluids, or cuttings associated with drilling fluids.
- 5.) All produced waters from drilling or production operations shall be held in closed storage tanks until they can be reinjected on site or transported to a state approved reinjection well.
- 6.) In order to ensure the safety of all parties, the permittee shall contact the LOUISIANA ONE CALL at (1-800-272-3020) a minimum of 48 hours prior to the commencement of any excavation (digging, dredging, jetting, etc.) or demolition activity.
- 7.) Structures must be marked/lighted in accordance with U. S. Coast Guard Regulations.
- 8.) As-built drawings and/or plats shall have written on them the date of completion of said activities and shall be submitted to the Department of Natural Resources, Office of Coastal Management, P.O. Box 44487, Baton Rouge, LA 70804-4487 within 30 days following project completion.
- 9.) All structures built under the authorization and conditions of this permit shall be removed from the site within 120 days of abandonment of the facilities for the herein permitted use, or when these structures fall into a state of disrepair such that they can no longer function as intended. This condition does not preclude the necessity for revising the current permit or obtaining a separate Coastal Use Permit, should one be required, for such removal activities.
