

MINISTER'S ORDER

MRO 193/23

Under The Oil and Gas Conservation Act

Meota East Area-Deadwood Formation – Carbon Dioxide Storage Project

Pursuant to subsection 17(1) of *The Oil and Gas Conservation Act*, Minister's Order MRO 156/23, dated October 10, 2023 is rescinded and approval is granted to Strathcona Resources Ltd. to dispose of carbon dioxide into the Deadwood Formation through the proposed wells located in legal subdivision 11 of Section 25-45-16 W3M, legal subdivisions 3 and 10 of Section 36-45-16 W3M, in accordance with plans filed as Application No. 279370 within Project SK PJ 70313, and subject to the following:

1. Any Measurement, Monitoring and Verification required by the Ministry of Energy and Resources will be the sole responsibility of the project operator for all phases of the project lifecycle.
2. No injection is to take place until a lease of space agreement has been obtained for the directly impacted lands of the project.

Dated at Regina, Saskatchewan, November 28, 2023.

A handwritten signature in black ink, appearing to read "Westerman", is enclosed within a circle. A horizontal line extends from the end of the signature.

Debby Westerman, Executive Director
Resource Management, Energy Regulation Division
Saskatchewan Ministry of Energy and Resources
