## Company and project information

## Map

## Table: Files

Right now project files are fixed documents, Andres is making this so I can drop **all** necessary files: permitting, project information, etc

## Buckets for files – Permitting, Project Information

## Table: News

News for projects (new feature) – I will have Date, Title, and website so all news for a project is in one place

Information from Admin panel (e-Fuels, CDRs, Capture Projects)
