Southwest Wyoming CO<sub>2</sub> Sequestration  
Location: Kemmerer and Rock Springs Field Offices**

---

**March 2025**

## 1. Background

*Southwest Wyoming CO<sub>2</sub> Sequestration EA* (DOI-BLM-WY-D090-2023-0010-EA) was prepared to analyze and disclose the site-specific environmental consequences of Moxa Carbon Storage, LLC's application to the Bureau of Land Management (BLM), Kemmerer and Rock Springs Field Offices. The application was filed with the Rock Springs Field Office (RSFO) on September 14, 2022. However, the majority of the lands for the proposed project are within the Kemmerer Field Office (KFO); therefore, KFO will be the lead office for this right-of-way (ROW). The ROW needed for the pore space is for the injection and permanent geologic sequestration of carbon dioxide and does not include any related surface infrastructure. Total federally managed BLM lands requested for the right-of-way is 605,091 acres, and the legal land descriptions for the proposed action are found in Appendix 1 of this document.

## 2. Consistency with National Policy and BLM Land Use Plans:

The decision to approve the Proposed Action is based upon the following:

- The Rock Springs Field Office Resource Management Plan and Record of Decision (RSFORMP; 2024), as amended, and 43 CFR 1610.5.
  - The Proposed Action is in conformance with the applicable LUP because it is specifically provided for in the following LUP decision(s): Page 2-49 of the RSFORMP/ROD: *"Manage public lands to meet transportation and ROW needs consistent with Goals and objectives of other resources while supporting the national energy plans and policies."*
- The Final Environmental Impact Statements (FEIS) for the KFO Planning Area (August 2008; BLM 2008a) and the Kemmerer Resource Management Plan/Record of Decision (KRMP/ROD) approved on May 24, 2010 (BLM 2010a).
  - The Proposed Action is in conformance with the RMP as amended and the land use direction pertaining to Land Resources (LR); Goal LR: 3; Manage public lands to meet access and (or) right-of-way needs. The site-specific analysis in this EA tiers to and incorporates by reference the information and analysis contained in these documents.
- Record of Decision and Approved Resource Management Plan Amendments for the Rocky Mountain Region including the Greater Sage-Grouse Sub-Regions of: Lewiston, North Dakota, Northwest Colorado and Wyoming and the Approved Resource Management Plans for Billings, Buffalo, Cody, HiLine, Miles City, Pompeys Pillar National Monument, South Dakota and Worland (Approved: September 21, 2015) (ARMPA) (2015a)
  - In November 2021, the BLM published an NOI in the Federal Register to amend land use plans regarding Greater Sage-grouse conservation in a number of Western states, including Wyoming. Since this RMP amendment is ongoing, conformance is assessed against the existing 2015 ARMPA. Management decisions in the pending 2021 Greater Sage-grouse Land Use Plan Amendments EIS and ROD could affect development within the project area in the future, but proposed allocations and management direction would not conflict with this proposal or prejudice the outcome of the RMP revision.
- Title V of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1761, as amended)

### **3. Decision:**

Based on my review of the *Southwest Wyoming CO<sub>2</sub> Sequestration EA* (DOI-BLM-WY-D090-2023-0010-EA), consideration of field office staff recommendations and all knowledge available to me, it is my decision to authorize a pore space ROW to Moxa Carbon as described in the Proposed Action, because it best meets the purpose and need, as outlined in the EA.

### **Terms/Conditions/Stipulations**

#### **Standard**

1. The Holder(s) shall comply with all applicable Federal laws and regulations existing or hereafter enacted or promulgated. In any event, the Holder(s) shall comply with the Toxic Substances Control Act of 1976, as amended (15 U.S.C. 2601, et seq.) with regard to any toxic substances that are used, generated by or stored on the right-of-way or on facilities authorized under this right-of-way grant. (See 40 CFR, Part 702-799 and especially, provisions on polychlorinated biphenyls, 40 CFR 761.1-761.193.) Additionally, any release of toxic substances (leaks, spills, etc.) In excess of the reportable quantity established by 40 CFR, Part 117 shall be reported as required by the Comprehensive Environmental Response, Compensation and Liability Act of 1980, Section 102b. A copy of any report required or requested by any Federal agency or State government as a result of a reportable release or spill of any toxic substances shall be furnished to the authorized officer concurrent with the filing of the reports to the involved Federal agency or State government.
2. The Holder is responsible for informing all persons associated with this project that they shall be subject to prosecution for intentionally damaging, altering, excavating, or removing any archeological, historical, or vertebrate fossil objects or sites. If archeological, historical, or vertebrate fossil materials are discovered, the Holder is to suspend all operations that further disturb such materials immediately and contact the Authorized Officer. Operations are not to resume until written authorization to proceed is issued by the Authorized Officer (BLM 8100.02.E; Title 16 U.S.C. § 470aa-470mm).
3. The Holder shall construct, operate, and maintain the facilities, improvements, and structures within this right-of-way in strict conformity with the plan of development which was approved and made part of the grant on (add date). Any relocation, additional construction, or use that is not in accord with the approved plan of development, shall not be initiated without the prior written approval of the authorized officer. A copy of the complete right-of-way grant, including all stipulations and approved plan of development, shall be on the right-of-way area during construction, operation, and termination. Noncompliance with the above will be grounds for immediate temporary suspension of activities if it constitutes a threat to public health and safety or the environment.

#### **Pore Space Stipulations**

1. The Holder must avoid unreasonable interference with operations on existing mineral leases authorized under the Mineral Leasing Act of 1920 (MLA), as amended, by preventing unnecessary or unreasonable damage or material interference to surface and subsurface authorized uses and economically recoverable mineral resources.
2. Locations of CO<sub>2</sub> sequestration wells located on or affecting federal lands that

penetrate structural closure along the Moxa arch or within the WY Thrust Belt should be evaluated for the presence of hydrocarbons and helium within the targeted injection formation(s) before injection of CO<sub>2</sub> begins. The BLM AO may request results of the evaluations for each well at the time of drilling.

#### **Notice to Proceed (NTP)**

1. The Holder shall not initiate any injection activities under the right-of-way grant without the prior written authorization of the BLM authorized officer. Such authorization shall be a written notice to proceed issued by the BLM authorized officer. Any notice to proceed shall authorize injection or use of the BLM-administered federal pore space only as therein expressly stated and only for the particular location or use therein described.
  - i. The Holder must submit the Class VI well authorization(s) to inject and operate from the Wyoming Department of Environmental Quality – Water Quality Division to the BLM authorized officer with their request for BLM approval of the NTP.
2. The authorized officer may suspend or terminate in whole, or in part, any notice to proceed which has been issued when, in his judgment, unforeseen conditions arise which result in the approved terms and conditions being inadequate to protect the public health and safety or to protect the environment.

#### **Bonding**

1. A bond, acceptable to the authorized officer, shall be furnished by the Holder before a notice to proceed is issued or at such earlier date as may be specified by the authorized officer.

#### **Mitigation Measures/Conditions of Approval**

##### **Greater Sage-Grouse General Habitat**

1. Surface occupancy and surface disturbing activities would be prohibited or restricted within a 0.25-mile radius of the perimeter of occupied sage-grouse leks within GHMA.
2. Avoid human activity between 8pm and 8 am from March 1 to May 15 within 0.25 miles of the perimeter of occupied greater sage-grouse leks.

##### **Greater Sage-Grouse Priority Habitat**

1. Surface disturbing and/or disruptive activities would be prohibited from March 15 to June 30 to protect sage-grouse nesting and early brood rearing habitats within 2 miles of the perimeter of any occupied lek within GHMA.
2. Construction activity and surface disturbance would be prohibited during the periods of March 15 – June 30 for the protection of Greater Sage-grouse PHMA habitat. Any exceptions to this requirement must have prior written approval from the authorized officer.
3. Surface disturbing and disruptive activities would be restricted to 1 disturbance per 640-acre average or less than 5% disturbance in PHMA.
4. Surface occupancy and surface disturbing activities would be prohibited or restricted within a 0.6-mile radius of the perimeter of occupied sage-grouse leks within PHMA.

5. Avoid human activity between 8pm and 8 am from March 1 to May 15 within 0.25 miles of the perimeter of occupied greater sage-grouse leks.

#### **Big Game Crucial Winter Range Habitat**

1. No disruptive activities will be allowed in big game crucial winter range between November 15 and April 30.

#### **Elk Parturition Habitat**

1. No disruptive activities will be allowed in elk parturition habitat between May 1 and June 30.

#### **Raptor Nesting**

1. No surface occupancy or disturbing activities within a 0.75-mile radius during American Kestrel seasonal restrictions (February 1-August 15) unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policy to raptor nests.
2. No surface occupancy or disturbing activities within a 0.75-mile radius during Burrowing Owl seasonal restrictions (April 1-September 15) unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policy to raptor nests.
3. No surface occupancy or disturbing activities within a 1-mile radius during Ferruginous Hawk seasonal restrictions (February 1-July 31) unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policy to raptor nests.
4. No surface occupancy or disturbing activities within a 0.75-mile radius during Golden Eagle seasonal restrictions (February 1-July 31) unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policy to raptor nests.
5. No surface occupancy or disturbing activities within a 0.75-mile radius during other raptor (Great Horned Owl, Northern Harrier, Osprey, Prairie Falcon, Red-tailed Hawk, Swainson's Hawk, and general raptor) seasonal restrictions (February 1-August 15) unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policy to raptor nests.

#### **Pygmy Rabbit**

1. Pre-construction surveys would be required in areas of proposed development. Surface disturbing activities will be avoided in occupied pygmy rabbit habitat.

#### **White-tailed Prairie Dogs**

1. To minimize impacts described above, pre-construction surveys would be required in areas of proposed development. Surface disturbing activities will be avoided in occupied white-tailed prairie dog habitat. Surface disturbance and disruptive activities in occupied white-tailed prairie dog colonies or complexes of 200 acres or greater would be prohibited.

#### **Idaho Pocket Gopher**

1. To minimize impacts described above, pre-construction surveys would be required in areas of proposed development. Surface disturbing activities will be avoided in occupied Idaho pocket gopher habitat.

#### **BLM Sensitive Bats**

1. Pre-construction surveys and avoidance of habitat where possible would help reduce impacts to bat species.

**Migratory Birds**

1. Pre-construction surveys and avoidance of habitat where possible would help reduce impacts to migratory bird species.

**Mountain Plover**

1. No surface disturbing or disruptive activities in area of mountain plover nesting habitat until a survey is conducted by a qualified biologist and a plan following best available science is submitted to the AO that will protect the area during nesting season (April 10-July 10).

**BLM Sensitive Species - Amphibians**

1. Impacts would be reduced by prohibiting surface disturbance within 500 feet of surface water and/or riparian areas.

**Paleontological Resources**

1. (Construction Monitor) A certified paleontologist who meets or exceeds the qualification standards recommended by the Secretary of the Interior will be on site at all times during construction. Any paleontological materials located during construction will be reported to the authorized officer. Procedures for determining significance and/or effect will be established at that time. Cost of any further paleontological work will be borne by the holder.
2. (Open Trench Inspection) A certified paleontologist who meets or exceeds the qualification standards recommended by the Secretary of the Interior will inspect the open pipeline trench after construction and before the pipeline is placed into the trench. Any paleontological materials located during construction will be reported to the authorized officer. Procedures for determining significance and/or effect will be established at that time. Cost of any further paleontological work will be borne by the holder.
3. (Spot Check) A certified paleontologist who meets or exceeds the qualification standards recommended by the Secretary of the Interior will be on site at all times during construction and shall inspect any bedrock exposed during surface disturbing activities (such as the construction of the reserve pit, well pad, access road, etc.). Any paleontological materials located during construction will be reported to the authorized officer. Procedures for determining significance and/or effect will be established at that time. Cost of any further paleontological work will be borne by the holder.

**BLM Special Status Plant Species ACEC**

1. Surface occupancy and use would be prohibited within the Special Status Plant Species ACEC.

**BLM Special Status Plants**

1. Pre-construction surveys would be required in areas of sensitive plant species habitat. Surface disturbing activities will be restricted unless the operator submits a plan that adequately addresses mitigation of impacts following the BLM mitigation policies for Special Status plant species.

**National Historic Trails**

1. To minimize impacts, sections of the proposed project area located within the RSFO boundary, are restricted to surface-disturbing activities within the National Trails Management Corridor if the project will cause an adverse effect or cause more than a weak contrast to the setting of the NHT.

#### **4. FONSI:**

Based upon the analysis of potential environmental impacts contained within the EA, it is my decision to approve the Proposed Action<sup>1</sup>. I have reviewed the EA, including the analysis of potential environmental impacts, and have determined that the Proposed Action will not have any significant impacts on the human environment; thus an environmental impact statement (EIS) is not required.

#### **5. Public Involvement:**

Scoping is an important part of the National Environmental Policy Act (NEPA) process and determines the scope of key issues related to a proposed action. Scoping can involve federal, state, and local government agencies, tribal governments, resource specialists, industry representatives, local interest groups, and other members of the public. The project had a combination of both internal and public scoping. In addition, the draft EA was released for a 60-day public review and comment period.

#### **6. Appeal Procedures:**

Right-of-way decisions are issued in “full force and effect” in accordance with the regulations in 43 CFR 2801.10. Full force and effect means that the decision can be implemented immediately even if the decision is appealed to the Interior Board of Land Appeals (IBLA). The appellant has the opportunity to file a petition for a stay with IBLA.

A stay is a request to prevent implementation of the decision until the appeal can be reviewed by IBLA. Procedures for filing an appeal or stay are discussed below.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4. Within 30 days of the decision, a notice of appeal must be filed in the office of the Authorized Officer at 280 US HWY 191 N, Rock Springs, Wyoming 82901. If a statement of reasons for the appeal is not included with the notice, it must be filed with the Interior Board of Land Appeals, Office of Hearings and Appeals, U.S. Department of the Interior, 801 North Quincy St., Suite 300, Arlington, VA 22203 within 30 days after the notice of appeal is filed with the Authorized Officer. The appellant has the burden of showing that the decision appealed from is in error.

A copy of the notice of appeal, any statement of reasons and all pertinent documents must be served on each adverse party named in the decision from which the appeal is taken and on the Office of the Regional Solicitor, U.S. Department of the Interior, Rocky Mountain Region, 755

---

<sup>1</sup> Executive Order 14154, *Unleashing American Energy* (Jan. 20, 2025), and a Presidential Memorandum, *Ending Illegal Discrimination and Restoring Merit-Based Opportunity* (Jan. 21, 2025), require the Department to strictly adhere to the National Environmental Policy Act (NEPA), 42 U.S.C. §§ 4321 *et seq.* Further, such Order and Memorandum repeal Executive Orders 12898 (Feb. 11, 1994) and 14096 (Apr. 21, 2023). Because Executive Orders 12898 and 14096 have been repealed, complying with such Orders is a legal impossibility. The [bureau] verifies that it has complied with the requirements of NEPA, including the Department’s regulations and procedures implementing NEPA at 43 C.F.R. Part 46 and Part 516 of the Departmental Manual, consistent with the President’s January 2025 Order and Memorandum.

Parfet Street, Suite 151, Lakewood, CO 80215, not later than 15 days after filing the document with the Authorized Officer and/or IBLA.

If you wish to file a petition pursuant to regulations at 43 CFR 2800 or 43 CFR 2880 for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed in this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

1. The relative harm to the parties if the stay is granted or denied,
2. The likelihood of the appellant's success on the merits,
3. The likelihood of irreparable harm to the appellant or resources if the stay is not granted, and
4. Whether the public interest favors granting the stay.
